SUMMARY

- Seeking a responsible position to apply my skills and experience in an innovative organization that offers opportunities for professional growth.
- Over 2+ years of experience in front-end technologies, including HTML, CSS, JavaScript, ReactJS, Redux, React Router, Bootstrap, Tailwind CSS, Next.js, CMS, and SEO.
- Proficient in using tools like Visual Studio Code and GitHub.
- Knowledgeable in Agile methodologies.
- Quick to learn new technologies and able to work independently.

TECHNICAL SKILLS

OS/Servers	: Windows
Tools	: Visual studio code
Version Control	: Git, GitHub
Core	: HTML 5, CSS 3, JavaScript, Java, Python
Library	: ReactJs, Redux, React router-dom
Framework	: Next.js, Tailwind CSS, Bootstrap
Database	: SQL, DynamoDB
Graphic Design	: Canva

PROFESSIONAL EXPERIENCE

Web, UI & UX Developer   **Nov 2023 - Present**
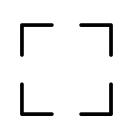

Otomatiks & QBee Academy

- Experienced Web, UI & UX Developer specializing in React and Next.js for building dynamic, user-friendly web applications.
- Adept in managing all aspects of software development, from design to deployment, ensuring high-quality, scalable solutions.
- Strong background in graphic design, enhancing user experience through visually appealing interfaces.

React Developer   **Aug 2021 - Oct 2023**

Adventure Technology Solutions Private Limited

- Experienced React Developer: Builds dynamic and user-friendly web applications using ReactJS.
- Component Development: Creates reusable and maintainable React components for efficient application development.
- State Management: Manages application state with Redux and Context API for smooth data handling.
- Performance Optimization: Enhances React application performance through code splitting, lazy loading, and efficient rendering.

Electrical Maintenance Engineer   **Jan 2021 - Jul 2021**

Aqua Sub Engineering / Texmo

- Powerhouse Maintenance: Maintains and troubleshoots electrical systems in powerhouses for reliable operation.
- Foundry Furnace: Handles electrical maintenance and repairs for foundry furnaces, including controls and heating elements.
- Auto-Pouring Systems: Manages maintenance of auto-pouring systems for accurate metal casting.
- Preventive and Corrective Maintenance: Conducts inspections and repairs to prevent downtime and address issues quickly.

PROJECT EXPERIENCE

Otomatiks Website (Next js)   **Jul 2024 - Present**

http://otomatiks-1.vercel.app

Technologies Used: ReactJS, JavaScript, Redux, Next.js,Tailwind CSS, Visual Studio Code

Responsibilities:

- Design and Implementation: Contributed to the design and development of the educational website, focusing on front-end functionalities tailored to a training institute.
- UI Development: Designed and built interactive interfaces for course content and user engagement.
- Testing and Quality Assurance: Performed unit testing to ensure the reliability and quality of the application.
- State Management: Utilized Redux to manage application state efficiently, ensuring smooth user interactions and data flow.
- Team Collaboration: Worked closely with the development team to meet project deadlines and ensure the website met educational and user requirements.

QBee Academy Website (React js)   **Jan 2024 - Jun 2024**

https://qbeeacademy.in/

Technologies Used: ReactJS, JavaScript, Redux,Bootstrap Visual Studio Code

Responsibilities:

- Component Development: Created and maintained reusable React components to enhance the modularity and efficiency of the application.
- State Management: Utilized Redux to manage and streamline application state, ensuring consistent data flow and seamless user interactions.
- UI Implementation: Designed and implemented interactive user interfaces for course listings, learning modules, and event management.
- Performance Optimization: Optimized React components for better performance, including code splitting and lazy loading to improve load times.

E_Commerce   **Jun 2022 - Mar 2023**

 Point of sale

Technologies Used: ReactJS, JavaScript, Redux,Bootstrap Visual Studio Code

Responsibilities:

- Contributed to the design and implementation of the Ecommerce project.
- Developed user authentication functionalities, including login and signup.
- Designed and implemented the shopping cart UI and its functionalities.
- Performed unit testing to ensure code quality and reliability.
- Utilized Redux for efficient state management across the application.
- Collaborated with the team to meet project deadlines and requirements.

Health Care   **Dec 2021 - Jun 2022**

Client Delivery

Technologies Used: ReactJS, JavaScript, Redux,Bootstrap Visual Studio Code

Responsibilities:

- Developed User Authentication: Implemented secure login and registration features for patients and healthcare providers.
- Designed Appointment Scheduling System: Created an intuitive interface for scheduling, rescheduling, and canceling appointments.
- Implemented Virtual Consultations: Integrated real-time video and chat functionalities for online consultations.
- Managed Health Records System: Developed a secure system for storing and retrieving patient medical records.

EDUCATION

BE Electrical and Electroincs Engineering - 73 %   **Jul 2016 - Apr 2020**
Gnanamani college of Technology ,Namakkal

HSC - 75 %   **Jun 2015 - Mar 2016**
Goverment Higher Secondary School, Thottiyam

SSLC - 89 %   **Jun 2013 - Mar 2014**
Goverment Higher Secondary School, Thottiyam

ADDITIONAL INFORMATION

- **Languages:** English, Tamil
- **Awards/Activities:** Most Innovative Employer of the Year (2022), Awarded HSC Best Student of the Year (2016) by LIC, Awarded SSLC Best Student of the Year (2014) by LIC

DECLARATION

Here by I declare that all the information furnished above are true to the best of my knowledge and belief.
